

FINCARTA Packaging Group

Production Monitoring and Control

Year 2010

Background

Multinational group specializing in paper and cartonboard for the packaging industry (5 sites -1 of them in Boston, US.)

- PLV (VA) Italy
- Cartotecnica Tifernate (PG) Italy
- Cartotecnica Chierese (TO) Italy
- Con-Pack (TO) Italy
- TWO C-Pack Boston, US.

Quality, consistency, innovation. You expect them, we demand them. Whether you require full packaging design from concept through final execution we can readily meet your needs by offering standard, semi-automated carton erecting, equipment to customized fully, automatic packaging systems

Implementation

OPERA was already in operation at the plant known as 'Cartotecnica Tifernate' -close to Perugia- and then selected by the Group Management as the reference MES solution to be implemented across all the 5 sites, including the one in the US. Over 2010 a pilot project has been carried out in Daverio including a range of key features such as

- Tracking employees hours worked
- Tracking number of pieces – cartonboard containing finished product
- Labelling and automatic material handling
- Batch track & trace

Benefits

- Resource Optimization and Cost Reduction
- Increase in overall plant performance
- Complete production control
- Increased productivity levels
